

Cell Cycle “Wheel” Project

30 points

CATEGORY	10-9	8-7	6-4	3-1
Content/Descriptions	All 4 phases of mitosis are described accurately with at least 3 important facts each. Bullet points are used. Spelling is correct.	3 phases of mitosis are described accurately with at least 2 important facts each. Bullet points are used.	2 phases of mitosis are described accurately with some facts.	0-1 phases of mitosis are described accurately
Content/Diagrams	All 4 phases of mitosis have accurate, labeled, and colorful drawings. Spelling is correct.	3 phases of mitosis have accurate, mostly labeled, and colorful drawings.	2 phases of mitosis have accurate drawings that contain some labels and color.	0-1 phases of mitosis are drawn accurately
Overall Attractiveness and Function	The wheel includes both cover sheets, their labels, and descriptions. They are correctly stapled together with the content wheel inbetween, making them functional. They are exceptionally attractive in terms of design, layout, color, and neatness. Spelling is correct.	The wheel include both cover sheets, and most labels and descriptions. They are stapled together with the content wheel inbetween, making them functional. They are attractive in terms of design, layout, color and neatness.	The wheel includes at least one cover sheet and most labels. The covers are not stapled, making them only somewhat functional. The wheels are acceptably attractive though they may be a bit messy and lack color.	Cover sheets and most labels are missing, making them not functional. The wheels are distractingly messy or very poorly designed. They are not attractive.
